

MOINUL ISLAM

I am working as an Associate Professor at Kochi University of Technology. My affiliations are listed below:

a. School of Economics and Management, Kochi University of Technology, 2-22 Eikokuji, Kochi City, Kochi 780-8518, Japan

b. Research Institute for Future Design, Kochi University of Technology, 2-22 Eikokuji, Kochi City, Kochi 780-8515, Japan

I have received my Doctor of Engineering (D.Eng.) degree from Kyushu University in 2016. My research focuses are:

- Economic Policy
- Environmental Economics
- Field Experiments
- Sustainability Science
- International Economics
- Human Geography
- Economic Data Science

I am experienced in econometric analysis, statistical analysis and spatial analysis. My mission is to Identify gaps between current and ideal societal systems to conceptualize research questions at the nexus of economics, environment, and public policy, while addressing them using rigorous economic as well as experimental methods to advance sustainable human–nature coexistence.

SKILLS

Design issue oriented empirical research to address pressing economic and environmental challenges

Execute field, laboratory and survey experiments, and collect as well as analyze primary data to address key research questions

Analyze secondary data, including cross sectional, time series, spatial, and panel data sets by using advanced econometric methods

MY VISION

Design a future where our daily behavior fosters human–nature coexistence
